1. Definition of Suspension

A suspension is a means enforced and taken by the administration of the residence to give the student time to think of ways to modify his/her behavior.

In serious situations, (theft, vandalism, drugs, alcohol, fighting, disorder, lack of respect towards staff and companions, and all that may endanger security) the suspension may be followed by a definite expulsion.

Expenses incurred from a suspension are assumed by the parents.

NOTE: A suspension or expulsion involves official correspondence with parents. Certified copy will be forwarded to the school principal.

2. Procedure for Suspension

STEP 1: Prior to Suspension

The supervisor is responsible for the application of the rules for the students in residence. He/she will use the means at his/her disposal to have the students conform to the rules.

Among these means we will find:

A firm attitude, clear requests, individual meetings with students having difficulties, a reminder of the consequences to violations, the application of sanctions provided, telephone call to parents, etc.

STEP 2: Suspension

When a suspension occurs, the supervisor completes a written report describing the nature of the violation. This report is forwarded to the school principal indicating the conditions for re-integration into the residence.
